ASIA PACIFIC NATURAL GAS VEHICLES ASSOCIATION

To lead and promote Asia Pacific NGV industry towards sustainable growth

ASIA PACIFIC NATURAL GAS VEHICLES ASSOCIATION (ANGVA)

The Asia Pacific Natural Gas Vehicles Association (ANGVA) was established in 2002 and is a trade association for the natural gas vehicles industry in the Asia Pacific region. It serves the needs of all stakeholders in the NGV industry and markets such as gas suppliers, equipment manufacturers, refuelling stations, vehicle manufacturers, conversion workshops, government agencies, consumers, etc. The activities of the Association are governed by the Board and its committees and implemented by the Secretariat.

ANGVA VISION

ANGVA vision is "To lead and promote Asia Pacific NGV Industry towards sustainable growth" through the promotion and development of a safe, profitable and sustainable market for natural gas as an environmentally friendly, economically viable, and energy security fuel for the transport sector.

OBJECTIVES

The objectives of the association are:

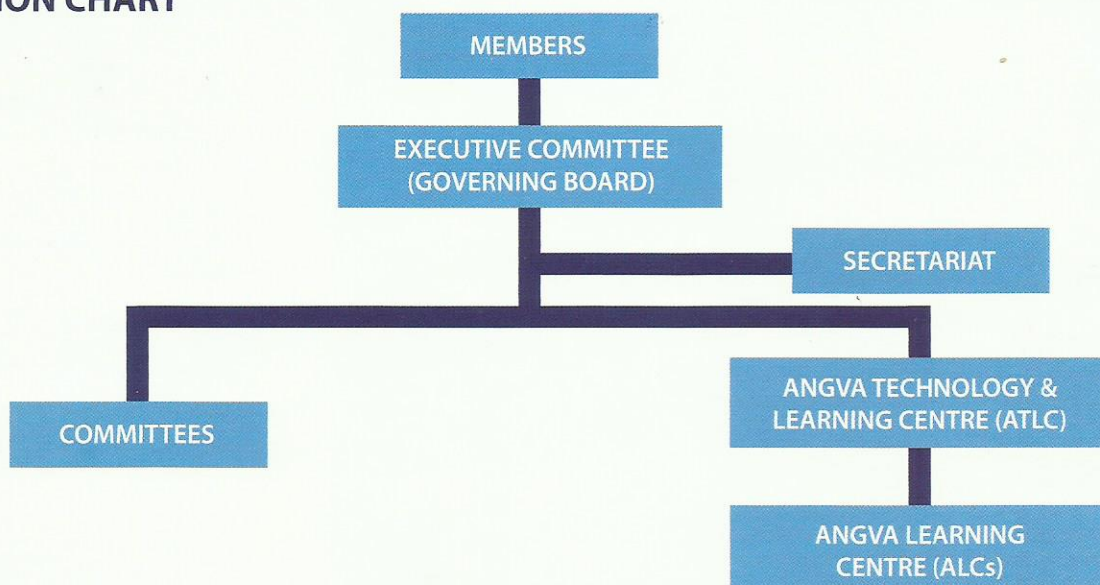

- To provide a forum in which members can discuss matters relating to natural gas as a fuel for vehicles.
- To promote the development of sustainable and profitable market for natural gas vehicles.
- To encourage the development of natural gas vehicles technology and refuelling infrastructure.
- To advance knowledge and learning, and stimulate research in the areas of natural gas as fuel for vehicles.
- To collect, analyse and disseminate information related to the use of natural gas as a fuel for vehicles.
- To promote standard of safety and uniformity of practices and standards relating to the use of natural gas as a fuel for vehicles.
- To organise conferences, exhibitions, seminars and trainings on the use of natural gas as a fuel for vehicles.
