

NGVS China 2018

19th China International NGVS and Gas Station Equipment Exhibition & Summit Forum

Date: May 10th -12th, 2018

Venue: China International Exhibition Center (New Venue), Beijing, China

Location: No.88 Yuxiang Road, Tianzhu Airport Development Zone, Shunyi District, Beijing

Supported by

National Development and Reform Commission

International Association of Natural Gas Vehicles

China Communication and Transportation Association

Hosted by

Asia Pacific Natural Gas Vehicles Association

NGVS Branch of China Communication and Transportation Association

China Automotive Industry Association Gas Vehicles Branch

Safety and Energy Saving Committee of CRATE

Beijing Qifa Exhibition Service Co.,Ltd

Co-Organizer

Xinxing Energy Equipment Co.,Ltd

CIMC Enric Holdings Limited

Chengdu Huaqi Houpu Holdings Co.,Ltd

Luxi New Energy Equipment Group Co.,Ltd

Chart Cryogenic Engineering (Changzhou) Co., Ltd

Chongqing Endurance Industry Co.Ltd.

Beijing Tianhai Industry Co.,Ltd

Organizer

Beijing Qifa Exhibition Service Co.,Ltd

Official Contractor

Beijing New Vision Exhibition Co.,Ltd

Media Partner

NGV Communications

China Transportation Network

China Ship Network

International Ship Network

Preface

Natural gas is recognized as a green energy resource in worldwide. It facilitates the development of non-pollution transportation and environment protection. Chinese government encourages to explore and push forward the usage of pollution-free fuel for transportation. As *Strategic Action Plan of Energy Development (2014-2020)* requests: Developing natural gas transportation stably; Developing liquefied natural gas, vehicles and compressing natural gas vehicles positively and orderly and Promoting natural gas family cars, intercity buses, heavy trucks and ships efficiently. Based on the newly announced document, *the Technology Road Mapping of Energy-Saving and New Energy Vehicles*, which confirms that natural gas vehicles have been treated as the major development tendency of energy-saving vehicles in China. What's more, The Ministry of Transportation has enacted a comprehensive plan on developing liquefied natural gas ships and has actively implemented the pilot demonstration. Like it said in *Views on Accelerating the Development of Natural Gas*, published on 23th June this year, China will raise the proportion of natural gas in China's energy consumption structure.

At this point, we will hold *the 19th China International NGVS and Gas Station Equipment Expo (NGVS China 2018)* in China International Exhibition Center (New) on May10th - 12th, 2018 in order to better service the development of NGV. The exhibition area amounts to 50,000 square meters in total and is divided into 8 exhibition halls. The NGVS China 2018 will witness the latest trends in the 21th century in international NGVS and gas station equipment industry with more than 300 enterprises from 20 countries on that exhilarating occasion. And it will be a great pleasure for us to have you.

The International NGVS Industrial Technology Innovation and Development Summit Forum: Forum theme (To be confirmed) will be announced in Feb. 2018

Forum will invite: Energy Bureau, Ministry of Transportation, International Association for Natural Gas Vehicles, Asia-Pacific Natural Gas Vehicles Association, China Communications and Transportation Association, China Road Transport Association, Water Transportation Department of Ministry of Transportation, National Gas Vehicles Center, China State Shipbuilding Corporation, PetroChina, Sinopec, CNOOC, Institutes of Gas Design, ENN, Towngas China, logistic companies, gas station construction companies, NGV equipment enterprises, Professionals and scientific research institutions of natural gas vehicles engineering from home and abroad, Major buyers and so on. Some exhibitors will be invited to attend the higher-level discussion rounds.

Forum fees:

More than 20 prestigious experts from home and abroad are invited to share their thoughts and conduct technical communications at this forum. Exhibitors are also welcomed to make speeches and spread their original ideas at the forum with a fee of USD 3,000 for 25 minutes.

Exhibition schedule:

Move-in period: 8:30-17:00, May 8th -9th, 2018

Exhibition period: 9:00-17:00, May 10th -12th, 2018

Scope of Exhibition

NGVS Related Products:

▲ Natural Gas Automobile: LNG automobiles; CNG automobiles; Single and dual-fuel natural gas automobile; LPG automobiles; CBM automobiles; Gas transportation vehicles and other relevant technical equipment;

▲ Commercial natural gas vehicles: Natural gas truck; Gas tractor; Gas tankers; Carrier loaders and Gas passenger cars;

▲ Passenger natural gas vehicle: Small family cars; Business vans; Midi and mini coaches;

▲ LNG construction vehicles: Gas concrete mixers; Gas excavators; Slag cars; Forklift trucks; Cranes; Dumper; Mixing plant; Cage-lifter etc.;

▲ Special natural gas equipment: Mobile gas storage semitrailer; Gas sanitation vehicles and watering cart; Mail cart;

▲ Natural gas exclusive vehicle: Mobile gas-refilling truck; Gas vehicle inspection automobiles; Gas refilling truck;

▲ LNG Ships: LNG transportation ship; LNG power-driven vessel and other LNG vessel relevant equipment;

▲ Coal-to-gas equipment: Natural gas storage equipment; LNG storage tank; Gas-fired boiler; Gas pressure tank; Regulator box; Gas control and detection technology;

▲ Natural gas engine: CNG/LNG automobile engine; Dual-fuel engine; Vessel engine; Construction machinery engine; Aircraft engine; Natural gas engine unit and other relevant equipment;

▲ NGV accessories and special equipment: Purification equipment: Gas storage system: Gas refilling system; Gas storage tank (tank production line, vacuum system and other equipment), High pressure line and line connections; Barometric device; Manual globe valve; Gas supply system; Gas filter; Pressure reducing regulator; Mixer; Low pressure gas hose and circulating water hose;

▲ Fuel conversion system: Vehicle fuel converter; Singular gas converter; Fuel switcher; Gas globe valve;

▲ Hydrogen energy and hydrogen refueling stations equipment: Hydrogen generator; Hydrogen refueling equipment; Hydrogen refueling station equipment; Hydrogen cell; Hydrogen fuel vehicles; Vehicular hydrogen supply system; Immersed pump;

▲ Gas station equipment: CNG/LNG/LPG refiling equipment kits; Compressor; Desiccator; Recycling Tanks; Gas storage equipment and their accessories;

▲ Deep freeze refrigeration plant: Liquefaction plant equipment; Accepting station equipment; LNG low temperature storage equipment; LNG peak-shaving station equipment; LNG gasification station; LNG/CNG refiling station equipment; LNG skid mounted pump; LNG filler; IC card system; Vacuum tube; Vacuum valve and so on;

▲ Relevant equipment: Flow instrument; Leak detector; Detecting instrument and other instruments and apparatus; Monitor and safety equipment;

▲ Purify equipment: Natural gas, CBM, Hydrogen, Industrial gases, Compressed air drying and molecular sieve dehydration devices;

▲ Control components: Skid-mounted package; Foundation; Inlet and outlet box; Motor starter and other components; High pressure gas valve and LPG;

▲ All Kinds of clean energy vehicles, clean fuel energy vehicles, energy-saving technology achievement exhibition.

Booth Rentals:

Basic price for open space : (with an area for 36~150 m²)

Foreign enterprises : 380 USD/m²

Joint ventures : 2,000 CNY/ m²

Basic price for open space : (with an area over 150 m²)

Foreign enterprises : 360 USD/m²

Joint ventures : 1,800 CNY/m²

Deluxe Standard booth: (3mx4m;3mx5m)

***note: This booth bundles a free 140*210mm leaflet in the official exhibition directory and a NGVS magazine leaflet**

12m² two open sides:

Foreign enterprises: 6,600 USD

Joint ventures: 30,800 CNY

12m² one open side:

Foreign enterprises: 5,600 USD

Joint ventures: 27,800CNY

15m² two open sides:

Foreign enterprises: 7,600 USD

Joint venture: 36,800 CNY

Standard booth: (3mx4m)

12m² two open sides:

Foreign enterprises: 5,000 USD

Joint ventures: 22,800 CNY

12m² one open side:

Foreign enterprises: 4,600 USD

Joint ventures: 20,800 CNY

Standard booth furnished with:

Exhibiting place; a 2.5m high partition plate; a company name fascia board; a carpet with an area of 12 m²; 1 information counter; 2 chairs; 1 power source socket (220v); 2 fluorescent lamps (add a glass round desk and 4 chairs for deluxe Standard booth exclude above)

The open space rental includes:

Exhibiting place; security service; cleaning service; (exclude management fee of 41-55 CNY /m²)

Special note:

The organizer will invite 1 to 6 influential partner enterprises to attend this exhibition as sponsors and co-organizers. The companies and enterprises are rated into Grade A, Grade B or Grade C. All these partners' names will be shown on the name cards, bulletin boards, posters or other publicity materials according to their grades. As for the matter of transportation and accommodation, please refer to the *Exhibitor's Manual*.

Procedure for Exhibitor:

Filling in Booth Application Form and sending the Form to Exhibition Organizing Committee by mail or by fax. Remitting the exhibition expense (50% deposit or the total amount) by TT or delivering it to Exhibition Organizing Committee within one week after submitting the Booth Application Form. The booths will be delivered following the principle of "Giving booths in accordance to the sequence of applying and paying". The balance should be paid off before March 31th, 2018 or the sponsor has the right to cancel the booking and the booth will not be reserved. After receiving the *Booth Application Form* and the payment, the sponsor will send the receipt along with the *Exhibitor's Manual* to exhibitors.

Exhibition Journal	Cover	Back Cover	Front cover and Inside front cover	Inside back cover	Crossed colored-sheet	Inner colored-sheet
RMB	¥ 30000	¥ 23000	¥ 10000	¥ 8000	¥ 8000	¥ 6000
10,000 Entrance tickets/ 5,000 CNY		10,000 Name tags/ 8,000 CNY		10,000 Card straps/ 15,000CNY		10,000 Handbags/ 25,000CNY

*The deposit will not be refunded to those exhibitors who canceled the exhibition after making application.

Exhibition Journal and Other Advertisements:

The exhibition journals not only get passed around among visitors, administrative departments and related associations during the exhibition session, they also circulate through the whole industry and major authorities at home and abroad. (A brief company profile within 200 words from every exhibitor are requested for the Journal)

Visitors Invited:

Oil field and gas field manufacturer, Petroleum and petrochemical company, Natural gas company, Gas company, Energy corporation, Engineering company, Gas refilling company, Equipment production enterprise, Bus company, Taxi company, Mining industry, Logistics company, Harbor station, Dork station, Government procurement agencies, Vehicle manufacturer, Ships and Vessels manufacturer, Auto modification company, Research company, Domestic and international brokers, Pressure vessel, Industrial gases industry etc.

*Prepared to run promotions on more than 100 medias from home and abroad through various channels

International Internet and Radio station:

Energy-saving and New energy vehicles network, China Buses network, China dynamic network, China Petrol station network, China's industrial gas network, China Compressor network, China Auto information network, China gas information network, China gas equipment, China Auto information and consultation network, China Auto network, World Petroleum network and Beijing television news and advisement etc.

The Organizing Committee Secretariat:

Add: C-1301 room, Ocean International Center, East 4th Ring Middle Road Chaoyang District, Beijing
